

SERVICE OFFERING

Primavera Overview

Partners Consulting Services (PCS), an onshore IT services company with multiple U.S. locations, has extensive experience deploying solutions around Oracle's Primavera suite of project management products. PCS is a long-standing Oracle Primavera partner, having collaborated on numerous engagements to deliver value and technical expertise to our joint clients.

PCS's capabilities include financial and schedule/resource data integrations with Primavera Contract Manager and Primavera Project Manager (P6). In addition, we have developed custom automations and integrations with several Primavera products. PCS has successfully integrated to multiple enterprise applications, including JD Edwards, PeopleSoft, Oracle Finance, Timberline, MRI, Maxwell, and others.

Using a scalable architecture implementation model and proven methodology, PCS integrates disparate client systems without disrupting critical business processes.

Typical benefits received by PCS's Primavera integration clients include:

- Reduced infrastructure costs and management issues
- Automation of manual business processes
- Data integrity enhancements
- Significantly improved data security and access controls

PCS's Primavera success is well demonstrated at the following reference clients:

[Wyndham Resorts](#)

PCS was selected by Wyndham Resorts (formerly Cendant Timeshare Resort Group) to facilitate the transfer of key financial information between Wyndham's project management systems (Primavera Contract Manager 10) and their financial system of record (PeopleSoft 8).

[Los Angeles Unified School District](#)

LAUSD hired PCS (operating under the name AniWorld at the time) to integrate Expedition 8.5 and their in-house accounting system. They also hired PCS to create a web-based application for automating the management of project baselines in Primavera 5.0. Additionally LAUSD selected PCS for assistance with the upgrade of systems and automations from P5 to P6.1 and Expedition 8.5 to Contract Manager 12. Automations have been presented at the 2008 Primavera Annual Conference.

[Public Storage](#)

Public Storage was using Expedition 7.5 to manage their 100+ construction, development, and acquisition projects, but was only using a small portion of Expedition's abilities. PCS helped them implement Expedition 10.0 and P3e/c, to design business processes to make optimal use of Expedition, and interface job costs between Expedition and JD Edwards OneWorld accounting.

SERVICE OFFERING

Primavera Overview

ValleyCrest Companies

PCS (operating under the name AniWorld at the time) built ValleyCrest's JD Edwards to Expedition integration – the largest such integration in the US, and singled-out as outstanding work in Primavera Magazine. PCS also assisted ValleyCrest with the upgrade of their Primavera systems from Expedition 7 to Contract Manager 11 for all 17 branches of the company. Additionally, PCS has developed a number of custom applications used by ValleyCrest for day-to-day operations ranging from labor and equipment dispatching, web-based user requests, document management automation, and JD Edwards financial data integrations from other accounting systems.

The Hanover Company

The Hanover Company appointed PCS to develop detailed integrations between Primavera Contract Manager 12 and Timberline Accounting. With detailed workflow processes utilizing all parts of Contract Manager and P6, including portfolio management, integrations were created and implemented to solidify an already impressive system. With thousands of daily transactions, the integrations are key in daily business operations.

Wake County Public School System

Wake County Public School System (WCPSS) selected PCS to create an integration between Oracle Applications and Contract Manager 11.1. This integration includes processing funding, subcontracts, purchase orders, subcontract and purchase order change orders, and direct payments.
